DETAILED ACTION

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It fails to list and claim the foreign priority which was claimed in the issued Patent.

2. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

Applicant has cancelled the claims for which the error was originally presented. Therefore, an error no longer exists within the reissue application that is being corrected. Hence, the reissue application can not issue with no error, i.e., we can't have a no-error reissue application

3. Claims 6-14, 17-27, 29 and 47-50 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

4. Claim 6 recites the limitation "said pixel electrode" in line 15. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2677

5. Claims 6-14, 17-27, 29 and 47-50 are allowable over the prior art of record.
